

Lara Rodrigues Ristić

Interaction and Product Designer

lrr.lara10@gmail.com | lararr.com | linkedin.com/in/lara-rodrigues-ristic

Product designer with a BA in Industrial Design and an MA in Interaction Design (SUPSI, 2026). I work from primary research through CAD modelling and fabrication to objects that get deployed, exhibited and used, and I design the visual systems that explain them.

RELEVANT EXPERIENCE

Interaction Design Intern - Woven Studio (Sep. 2025 - Feb. 2026)

- Designed and fabricated weatherproof enclosures environmental sensors, taking each from concept and sketch through Fusion 360 to a finished, stress-tested product.
- Built exhibition-ready components for large-scale immersive installations across parallel client projects, covering 3D modelling, metalwork, electronics integration and material testing.
- Adapted design decisions to production constraints without losing design intent, to fixed client deadlines in a small multidisciplinary team.

Freelance Visual Designer (Jan. 2023 - Nov. 2023)

- Designed complete brand identities for independent clients. Delivered logos, brand marks, business cards, communication assets, merchandise and final print production files.
 - Edited photo and video content live at the Data Science Conference Belgrade for immediate social media distribution during the fast-paced event.
-

SELECTED PROJECTS

Storia - Product and Visual Designer (May 2025 - ongoing)

- Designed and built three functional prototypes using CNC milling, 3D printing, hardware integration and soldering, iterating the physical interaction model based on user research.
- Led the visual identity and communication system: logotype, colour palette, pattern library, typography and icon set, applied across print, digital, presentation and exhibition formats.
- Produced and adapted all exhibition, print, and presentation material for different private and public events, keeping the system consistent across formats and various audiences.
- Exhibited at Bern Design Festival, World Usability Day Brugg and the Junior Design Research Conference Zurich. Supported by Innosuisse initial coaching grant.

Group Guide Volunteer - International Student Week Belgrade (Aug. 2022, 2023, 2024)

- Led international participant groups across workshops and cultural activities over three consecutive years.
 - Coordinated schedules, logistics, and communication in a dynamic multicultural setting.
-

EDUCATION

MA Interaction Design (Grade: 5.6 / 6) - Sep. 2024 - July 2026

SUPSI - University of Applied Sciences and Arts of Southern Switzerland

BA Industrial Design (Grade: 9.74 / 10) - 2021 - 2024

The Academy of Applied Studies, Polytechnic of Belgrade

SKILLS

3D, CAD and fabrication: Fusion 360, Rhino 7, AutoCAD, 3D printing, CNC milling, Laser cutting, Soldering
Visual and digital: Brand identity, Exhibition graphics, Visual communication (Presentation, Print and Social media asset design), Figma, Adobe Illustrator, Photoshop, DaVinci Resolve
Research: Qualitative interviews, User testing, Desk and market research, Competitor analysis, Affinity mapping, User testing, Material testing
AI tools: Claude, Replicate, Meshy AI, Nano Banana, Vizcom, Dovetail.

Languages: English (fluent), Serbian (Native), Brazilian Portuguese (Native)

Other: Driver's licence, Former professional ballet dancer (10+ years of training and performance experience)
